PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with 3+ years of experience building scalable, user-centric web applications using React and TypeScript. Proven track record of delivering high-quality UI features, improving performance, and contributing to modern frontend architectures. Experienced in collaborating with cross-functional teams to ship impactful product features end-to-end. Strong focus on usability, accessibility, and maintainability, with hands-on experience integrating AI-powered features into applications.

WORK EXPERIENCE

Full Stack Developer – Standards Australia

2024 – Current | Sydney, New South Wales

- Contributed to the migration of a large production Angular application to React and TypeScript, improving maintainability, performance, and developer experience.
- Implemented business workflows across React frontend and .NET backend services, translating product requirements into reliable technical solutions.
- Migrated backend API from .NET 4.8 to .NET 8 improving system performance, scalability, and long-term maintainability.
- Implemented and maintained Auth0 authentication integrations (OIDC/SAML) across multiple application improving the login time from 2 -3 minutes to seconds.
- Built reusable UI components and improved frontend architecture to support faster feature delivery.
- Developed and maintained unit and component tests using Jest and React testing Library to improve release confidence.
- Supported multiple production systems by diagnosing issues, resolving bugs and improving application stability.
- Implemented monitoring and alerting using Sumo Logic, investigating production incidents and resolving penetration testing findings.
- Collaborated with product owners, business analysts, QA engineers and developers in an Agile environment to deliver production features.

IT Graduate – Standards Australia

2023 – 2024 | Sydney, New South Wales

- Designed and developed an internal scheduling and planning application using React, TypeScript, Azure Functions, and .NET to support workshop planning, staff availability, and leave management
- Led migration of organisation's public website from WordPress to Webflow, improving content management workflows and overall site usability
- Investigated and resolved issues across internal and external applications while collaborating with senior engineers on solutions
- Managed deployments through Azure DevOps CI/CD pipelines using YAML workflows, supporting reliable deployments across environments.
- Designed UI workflows and high-fidelity prototypes in Figma, collaborating with stakeholders to translate business requirement into intuitive user experiences.

PROJECTS

VIORA – AI Video Speech-to-Text & Summarisation Tool | 2025

- Built a React + TypeScript application integrating AI APIs to generate video transcripts and summaries
- Designed and implemented user flows for upload, transcription, summarisation, and export
- Focused on modular frontend architecture and reusable component design
- Leveraged AI to enhance user productivity and content accessibility

Calendar Application

- Led development of a production-ready calendar and scheduling application using React, TypeScript, .NET, and Azure Functions
- Designed intuitive UI workflows and prototypes in Figma for managing workshops and team availability
- Built reusable frontend components and structured state management for scalability
- Deployed to production and actively used for internal planning and operations

SKILLS

TECHNICAL SKILLS

- **Frontend:** React, TypeScript, JavaScript (ES6+), HTML, CSS, Tailwind
- **Testing:** Jest, React Testing Library
- **Backend:** .NET, REST APIs, Azure Functions
- **Cloud & DevOps:** Azure, Azure DevOps, CI/CD
- **Auth & Security:** Auth0 (OIDC, SAML)
- **Tools:** Git, Figma, Sumo Logic
- **Database**: SQL Server, PostgreSQL

EDUCATION & AWARDS

Bachelor of Information Technology
King's Own Institute | 2021 – 2023

Awards

- **Above & Beyond Award – Nov 2024** | Standards Australia
- **Academic Performance Award – Oct 2023** | King's Own Institute
